James Fowler and others remind us that growth in our faith journey is a pilgrimage of self-awareness. In a three-page paper, reflect on your own faith journey in response to the following questions.

1. How would you describe your own faith journey using the stages of faith format?
2. Which stage of faith do you recognize as most active in your life right now? What are some clues that suggest this is the stage expressed in your life right now?
3. As you begin the Ministry Formation Program, how does the article, class material and discussion help you understand the importance of recognizing how faith develops in yourself and the people you will be ministering to and with?
