

Year 2 Ministry Formation
Integration Session
Preview Sheet

In year two of ministry formation, the Integration Session focuses on the *Learning Report*, which is a culminating exercise that synthesizes the two years of formation. The facilitator will introduce the *Learning Report*, lay out the expectations, and lead you through some activities that will actually start you on the process of writing the report.

There really is no preparation for this session other than to give some prayerful reflection to the last two years of your participation in the Ministry Formation Program. For example, you may want to reflect on who you were when you first attended the Ministry Formation Orientation, and compare that to how you see yourself today. What has happened in your faith and life journeys inbetween? What are some of your greatest insights and what were some of your greatest challenges? What have you learned about yourself and ministry in the Catholic Church?

It is our hope and prayer that this preparation and assistance in composing the *Learning Report* will enable you to see the handiwork of the Holy Spirit in your life and guiding your call to serve God's people.

Please print out the handout for this Integration Session and bring it with you to the session. It is not necessary to review it in advance as they will be used for discussion and in-class activities.
